

GuestAlert

Paging Solutions

Reduce Chaos at the Host Stand

Now, your hostess can alert guests that their table is ready with the touch of a button. It's easier than ever before with our GuestAlert® Paging System, featuring Glowster® Plus and our NEW GuestPass™ and PatronPass™ pagers.

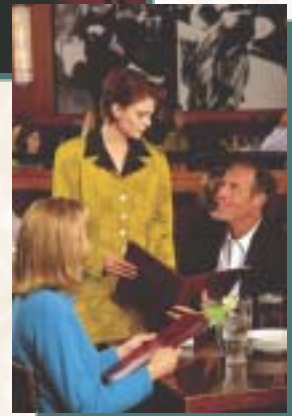

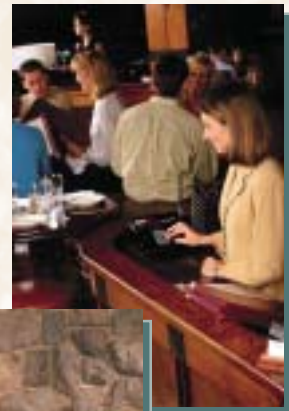

In addition to vibrating and flashing, the Glowster & GuestPass pagers can play a voice message informing guests that their table is ready, or that they have gone too far from the restaurant.

All guest paging options support promotional areas that provide valuable advertising space for your in-store promotions.

GuestAlert Benefits...

- ◆ Find guests faster
- ◆ Reduce no-shows and walkaways
- ◆ Quote accurate wait times
- ◆ Seat more people, more quickly
- ◆ Establish commitment between restaurant and guest
- ◆ Get rid of annoying PA noise
- ◆ Reduce guest anxiety
- ◆ Run a smoother operation
